7.1.3. Policy document on environment and energy usage

1. Environment Policy

Introduction:

Environmental policy aims to formulate and implement policies in response to environmental issues in order to achieve environmentally sustainable development. Environment should protect by maintaining a Green, Eco friendly campus and by creating awareness among its stakeholders both as individuals and members of the society.

Objectives:

- 1 To Promote & Benchmark for environmental protection initiatives.
2. To encourage projects on environmental issues.
3. To impart awareness about clean and green campus,
4. To initiate sustainability practices in the campus and among stakeholders by organizing Seminar and Conferences.
5. To maintain and monitor the sustainability and eco-friendly initiatives (clean fuel, renewable resources, Vermi Compost units. etc.).

Policy on Environment:

1. Reduction in resource use / Plastic should be ban in the campus.
2. Premises of the campus should maintain neat and clean.
3. Developing an environmental ethics and value system among students.
4. Organization of various seminars and conferences on Environmental issues in the campus.
5. Conduct Environment audits for recommendations and continues improvement.
6. Green campus support local sustainability efforts.
7. Aware the Stakeholder about environmental issue by volunteers of NSS through special camps.

2. Energy usage policy

Introduction:

We enjoy a very comfortable life by using electricity, but we must also be aware global issue. One of the most immediate benefits of saving electricity is the amount of money we will save each month on our utility bills. Another benefit of using less electricity is the positive impact you can have on the environment.

Objectives:

1. To analyze the energy flow in a building and understand its energy its energy dynamics.
2. To reduce the amount of energy input into the building.
3. To indicate how and where we can reduce energy consumption and save Energy Cost.
4. To be able to teach and promote knowledge to the others.

Policy on use of energy:

1. Awareness of use of electricity is done by faculty in various programs.
2. Maximum sunlight should use to illuminate our workspaces.
3. Replace generic lights bulbs with energy saving bulbs and tubes.
4. Use LED bulbs save more electricity.
5. Energy audit did regularly.
6. Switching the *lights off* when you leave the classroom.
7. Solar Power Grid System is installed in the Campus
8. Electric appliances is repaired and serviced regularly.
